OCTOBER 2026

Innovation at Work: Fall Co-Op Intern Rocco Sances

This fall, we had the exciting opportunity to welcome a student intern from Wentworth Institute of Technology in Boston - and we had several talented students vying for the spot! During the Fall '26 semester, Rocco will be building a complete system and working on a variety of other hands-on projects with our team. We're excited to have him on board. Welcome, Rocco!

The Latest C-Mount Lenses from Attain Optics

Attain Optics C-Mount lenses offer high-quality imaging for a variety of machine vision applications. Available in multiple focal lengths, including 26mm, 35mm, and 50mm, these versatile 4/3" format 30MP rated lenses provide reliable optical

Product Spotlight: Telecentric Lenses by Computar

Computar's TEC-ML LensConnect Series brings added flexibility and control to telecentric imaging applications. These 8-megapixel-rated C-Mount lenses feature adjustable working distances and a USB interface, making them well suited for precision machine vision, inspection, and measurement systems where accuracy and repeatability are essential.
